**Notes for sample preparation and shipping:**

- Label specimen legibly with the following information, ensuring the identifiers on the specimen match the same information on the requisition:
  - Patient name (first and last)
  - Unique identifying number
    - This number may be the patient's date of birth or medical record number
- Fill out the Test Requisition Form completely, including patient, facility, clinician demographics, specimen and clinical information. Please include ALL relevant clinical information, the referring diagnosis, the clinician's NPI number and the corresponding ICD-10 codes. Please be sure to provide accurate contact information on the TRF as it will be used for communication of results
- Place the specimen, Requisition Forms, and any additional information in the shipping container. Failure to perform this step will likely result in delay of testing.
- Ship the sample within 5 days at room temperature with overnight delivery.
- Specimens should be sent per the shipping label included in the provided PerkinElmer Genomics kit or using your preferred carrier. To assist in this process, the contact information for the major carriers is below:
  - Federal Express: 1-800-GO-FEDEX (800-463-3339)
  - UPS: 1-800-PICK-UPS (800-742-5877)
- Ship specimens to: PerkinElmer Genomics, 250 Industry Dr. Suite 400, Pittsburgh, PA 15275
